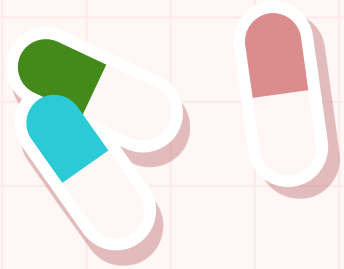
Stay med-savvy with **Curify App**

Presentation by: Uyg'un Tursunov



By med-savvy team

Shockingly

3,505

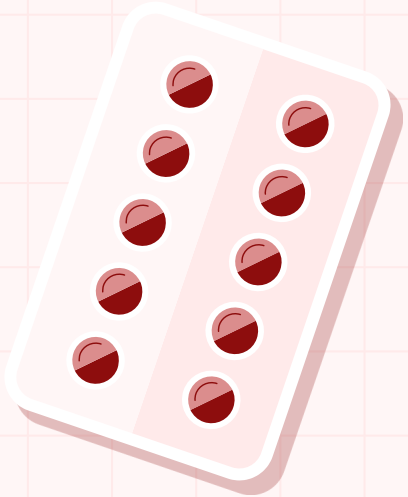
The amount of false calls ambulance service receives in 2023 in Uzbekistan, which is 30% of total calls

This results in

50%

Increase in the average wait time for ambulance globally

39% Of emergency room visits have been handled in an outpatient setting.



It leads to emergency room visits in the Uzbekistan that are for non-urgent conditions estimating: 30%

107 Average number of doctors per **10,000** population

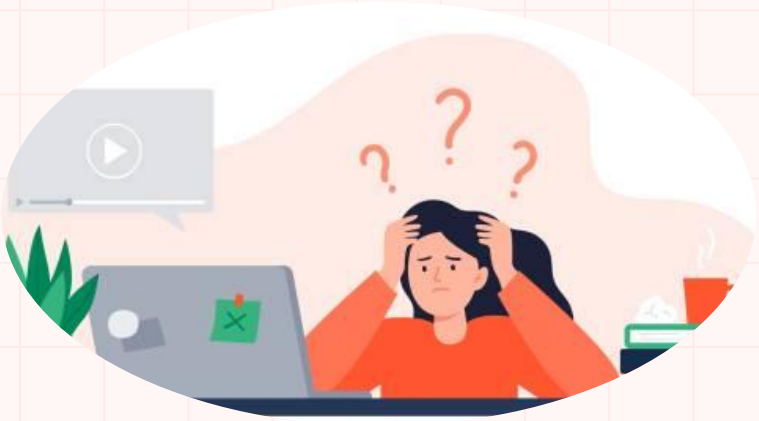
According to data.egov.uz

And we can continue for long...

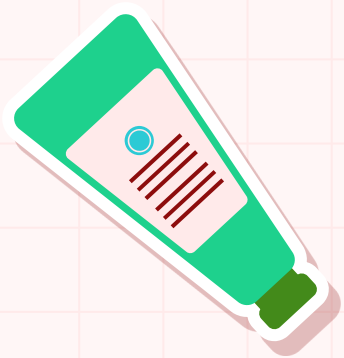
The problem is...

People's ignorance: mostly we tend to ignore all the knowledge and always panic in critical moments

Lack of reliable source: existing sources provides more confusion to patients



What is our role?



Facilitators - providing reliable and affordable tech solutions to demanding problems

Thinkers - always trying to improve our role and create new technologies

Curify App

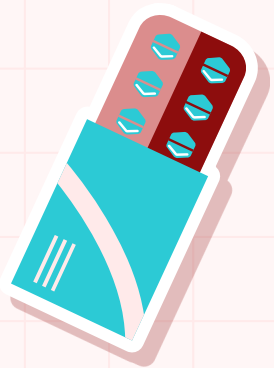
-Ai based assistant Curify Assistant

-Drugs large database

-Online Doctors scheduling

-Daily medical news

-Information about doctors



And more, only in our app...

Use Cases

Thousands of weeks and days are being spent waiting to get consulted and diagnosed by a professional. **Millions** of web pages are being scrolled to get necessary information about injuries.

Why can’t they use just one app for all of that?

Get free diagnoses

Know all drug contents

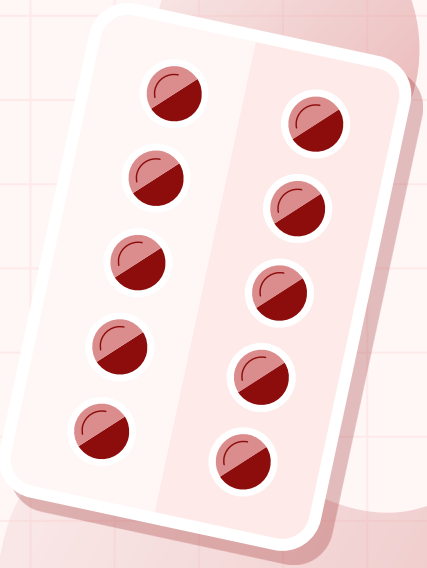
Schedule visit to doctor

Get an Ai help

Please describe your injury in details with all clear symptoms to get most accurate diagnosis and recommendation

Drug database

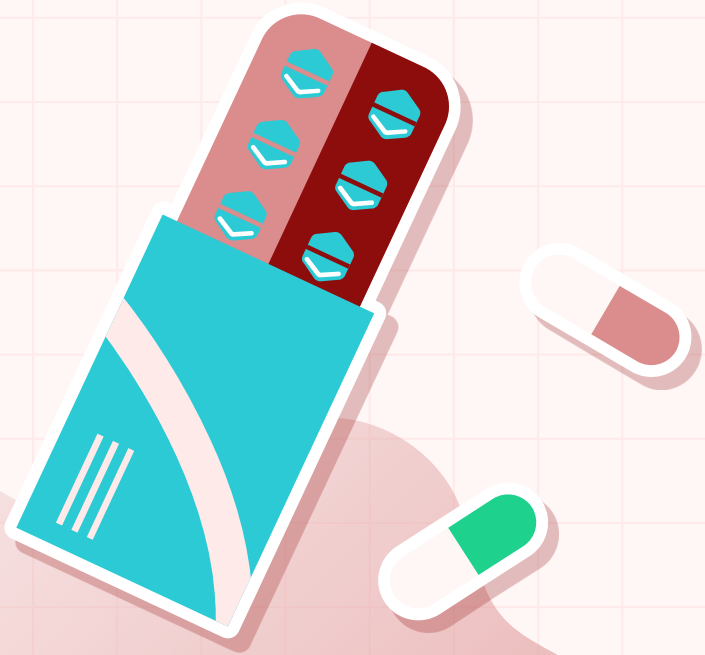
Search for all information you need about specific drugs



Doctors information

Don’t know which doctor to visit in a specific case? Use AI, understands your symptoms, schedule your visit.

Why Curify?



Easy to use

Everything is user friendly and the interface provides best experience

Free to access

All features like AI and drug database are free options

Monetization

- Drug advertisements
- Premium account to access chat with doctors
- Doctor rate - service to increase

Stay med-savvy
with Curify

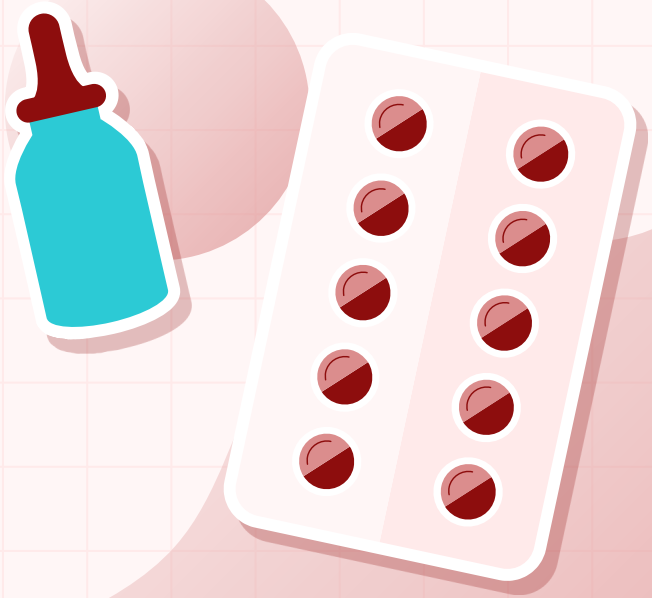
Potential users

Individuals

They can easily extract medical information.

Doctors

They can access drug contents, get their appointments organized.



Future scope

Integrate med devices

Add full

Collaborate with hospitals and pharmacy
